Mix & Match™ Service

(more than)
>1,000
 possible combinations

Custom constructions for optimal performance

Mix & Match™ allows label converters to request a precise combination of adhesive, face material and release liner. It opens up whole new opportunities to innovate and differentiate.

As with all Avery Dennison products, extensive support comes as standard, for printers, converters, packers and end-users. A technical specialist can help to determine which existing or tailor-made product is the optimal solution for any given application and, if none of the 1000s of Mix & Match™ combinations meet your requirements, we will work closely with you to produce the right engineered solution.

Portfolio Characteristics

Custom facestock, adhesive and liner combinations on request.
 All adhesive technologies: emulsion, hotmelt, UV-hotmelt, solvent

Application Areas

The range of potential applications is vast. The Mix & Match™ service is designed for those projects that need label properties that may not be available off the shelf.
