# FSC® Certified Materials

European Portfolio 2018

As Avery Dennison, we are committed to source 100% certified paper in 2025, of which 70% will be Forest Stewardship Council-certified.

Today in Europe, we offer approximately 80% of our paper facestock\* with FSC certification. With more than 1900 active FSC products to choose from and with uncompromised Avery Dennison products performance, we offer the largest FSC certified portfolio in the industry.

Note: As a label converter you can transfer FSC certificates to customers as long as you have achieved FSC certification; this is required in order to maintain the FSC Chain of Custody.
