# Make It Easy to Choose the Right Removable for the Job.

The Avery Dennison Select Solutions Removables portfolio is a convenient tool designed to simplify the oftenconfusing world of removable labeling. The portfolio offers:

- A proven core of multipurpose products, featuring general purpose and application solution adhesives, that address a range of application needs from simple to complex
- Detailed adhesive performance charts make it easier to select the proper label construction for your application
- Separate paper and film sections featuring solutions developed for a variety of performance requirements
- Cost-effective, application-based solutions with shorter time to the marketplace, low minimum order quantities, fast quotes and rapid shipping

## Select Solutions<sup>™</sup> Removables Portfolio

Taking the Time and Complexity Out of Removable Labeling

### Broad Selection of Purpose-Built Removables

You can depend on the Select Solutions Removables portfolio to deliver a breadth of technologies that can position you to move into new segments with confidence. Suited for an array of applications, the portfolio provides targeted solutions with stable tack across the label's lifespan, clean removal and the substrate versatility you need.

## Collaborative Approach

Take advantage of the Select Solutions Removables portfolio and the Avery Dennison team to grow your removables business. Our global team – including adhesive research experts, technical specialists and segment professionals – can readily suggest a product to meet your application needs. If a product does not exist, our Engineered Solutions team can create a specialized construction just for you and your customer - expanding your breadth of products and offering the right custom solution.

Inspired Brands. Intelligent World.™

#### **General Purpose**

R5195	General purpose removable adhesive featuring moderate initial tack and minimal adhesion build over time. Its consistent level of adhesion and long-term removability make it suitable for applications on substrates such as glass and plastics. Proven successful for shelf and tote marking used in logistical tracking.
Application	a Solution
UR3	Ultra-removable microsphere adhesive, featuring a consistent level of adhesion, as well as long term removability and repositionability across a wide variety of substrates. Fasson <sup>®</sup> UR3 remains removable for months with peel and reseal characteristics that provide consistent, secure positioning and clean removability.
LP1000	Ultra removable adhesive, featuring long-term, clean removability across wide variety of substrates. It offers economical solution for various opportunities. Designed to offer smooth peel and excellent die cutting and stripping characteristics. Particularly suited for applications like: retail information labels, inventory management or work-in-progress, point of sale promotions, newspapers, promotional labels, books, housewares, credit cards or glass.
R423/R5423	Removable, low peel adhesive featuring long-term removability, and excellent die cutting and stripping characteristics. Particularly suited for wallpaper promotional labels, high gloss book covers and shelf marking. R5423 is an excellent solution for Monroney labels.
R128	Removable rubber-based adhesive with high initial tack, internal strength and stable adhesion. R128 is recommended where clean removability is of primary importance. Adhesive can be used on a variety of substrates including glass, metal, plastic and others.

### **Removable Adhesives for Film Components**

General I	Purpose and a second seco
R3500	Specially formulated acrylic adhesive designed for ease of removability from plastic packaging while maintaining good peel performance. Suitable for many general-purpose applications.
Applicati	on Solution
R143	Specially formulated acrylic removable adhesive with versatile performance properties. Specific applications include durables, electronics assembly labeling and reclosures.
R1490	Specially formulated low odor acrylic adhesive with clean removability properties and a smooth, low noise peel. Smooth peel from flow-wraps, olefins and other plastics. Suitable for reclosure applications.
R300	Ultra removable clear adhesive, suitable in applications requiring long-term removability. Particularly well suited for CD/DVD security labeling, oil change labels, housewares and glass.
R3400	Removable adhesive featuring moderate initial tack and minimal adhesion build over time. It offers a consistent level of adhesio n and long-term removability across a variety of substrates. An excellent choice for resealable packaging and multi-use labels. Suitable for wide range of substrates and applications.
R3525	Specially formulated acrylic adhesive designed for ease of removability from plastic packaging while maintaining good peel performance. Suitable for many general-purpose applications.

#### **Film Products and Service Programs**

A list of our featured removable film constructions and service programs. Based on customer input and insight from Avery Dennison experts, the offering continues to evolve. If you are seeking a product that is not listed, please contact your sales or technical representative for information about our custom product development program - Engineered Solutions.

#### Adhesive Snapshot for easy reference

The Removables Portfolio features nine adhesives that include technologies such as microsphere, solvent acrylic, emulsion acrylic and hot melt rubber. Designed to perform in specific applications on various substrates, the portfolio's constructions provide the versatility you need. To easily reference the properties of each adhesive, please refer to the paper and film charts below.

Removable Paper Adhesives		Removable					
		UR3	LP1000	R423	R128	R5195	
	Adhesive Technology	Emulsion Acrylic (Microsphere)	Emulsion Acrylic	Emulsion Acrylic	Hot Melt Rubber	Emulsion Acrylic	
	Minimum Application Temperature, °F	20	10	10	10	40	
	Service Temperature Range, °F	-40 to 160	-40 to 160	-40 to 160	-65 to 120	-40 to 160	
	Food Contact	Indirect	Indirect	Indirect	Indirect	Indirect	
	Peel* (PE/Stainless)	.52/.40	.28/.37	.60/.52	.74/.55	.73/.91	
	Tack* (PE/Stainless)	.60/.93	.01/.42	.25/.53	1.0/1.3	1.1/1.4	
	Polypropylene (PP)						
Plastic	Polyethylene - High Density (HDPE)						
	Polyethylene Terephthalate (PET)						
	Polyethylene Coated						
Glass	Window (annealed)						
	Automotive (tempered)						
	Powder Coated (smooth PET)						
Metal	Painted (alkyd enamel)						
	Stainless Steel						
	Recycled Corrugated						
Paper	Bond (uncoated)						
	Glossy (coated)						

Based on six week testing of practical removability rating and failure mode \*Peel and tack are measured in lb./inch

Recommended - Test in actual application

Recommended - Tighter adhesion Not Recommended
